Edwards "Advanced Calculus of Several Variables". We have been using some chapters from this textbook (1995 edition, ISBN: 978-0070602281) in my Advanced Calculus class, but our professor just gave us photocopies of the chapters we were covering (2 and 3 I think). I wanted to try to do some of the exercises in those chapters to practice for my exam, but I don't have the answers to any of the problems so I can't tell if I am doing them right or not.
