GM 3.0 Marine Engine Long Block Sale, Remanufactured Rebuild

3.0L GM Base Marine Engine. Indmar Part # 051079N. The Indmar 3.0L new base engine includes the following: Block (with all internal components) Water Circulating Pump. Spark Plugs. 14" Flywheel. Oil Pan. Harmonic Balancer.

3.0L GM Base Marine Engine

GM produced 2 different 3.0L model marine engines up through 1994. They were both 3.0L Marine Engine models but had different cylinder heads which is where they got the different performance levels; 120 (large oval port head) and 140 Hp (small rectangular port head).

Replacing the Mercuriser 2.5L & 3.0L Engine's---

This engine is still one of the most popular engines on the market today, it was used primarily on all entry level boats by Mercruiser, OMC, Volvo Penta and Marine Power. The GM 3.0 Liter 181 Marine base engine offers a new DIRECT REPLACEMENT repower option for applications that are 1990 and newer. If your engine is 1989 or earlier you may be able to use this engine but additional parts may be needed such as a Flywheel and Coupling, and possibly a new Exhaust Manifold.

3.0L GM Base Marine Engine—Basic Power Industries

GM called it a "marine engine" because it had more Nickle in the alloy to resist heating and salt water. I had two in a 24' Fiberform that went 31 Mph (GPS) and ran like a bullet proof engine till some salt water got in an engine. Mine were Carbureted though. I'd check some other boat sites on that 3 Liter engine before you make the buy.

GM 3.0 marine engine—Glen-L.com

Tri Star Engines & Transmissions carries a large selection of remanufactured GM marine engines for sale. Find 3.0L GM-8.2L GM marine engines. Check them out!

GM Marine Engines—High Performance Marine Engines

The 3.0 L gas engine uses a PG-260L starter motor. This starter motor uses a gear reduction system in order to drive the pinion. The armature shaft gear drives an internal gear at the gear – reduction end of the driveshaft at a speed of one driveshaft revolution for each 3.9 revolutions of the armature.

GM Marine

All of our GM 3.0 marine engines are made specifically for marine application; for example at Tri Star we use marine specific cams, forged or hypereutectic pistons and brass frost plugs in every marine engine we sell. Don't be fooled by lower prices that claim to be marine engines with lower grade components.

GM 3.0 Marine Engine—Remanufactured Long Block

The engines oil and filter must be changed for marine engines every 2 months or 25 hours, whichever comes first. Records of the maintenance performed, receipts and work orders must be kept. The parts, labor, date, mileage or hours, and service performed should be documented on the receipts.

Used & Remanufactured Marine Engines For Sale—Marine---

This is a completely remanufactured 3.0L/181 c.i. marine base engine. This engine will replace those 3.0L marine engines used in Mercruiser, Volvo Penta, Crusader, Indmar, Marine Power, and other applications between the years 1990-2015. This engine will only replace carbureted 3.0L engines. This will replace older 2-piece rear main seal applications with the addition of a new flywheel, mechanical fuel pump, manifold adapter, and engine coupler.

Marine Engines—Remanufactured Marine Engines---

This is a BRAND NEW marine cylinder head for all 3.0L/181 marine engines made from 1991-newer. This is an aftermarket replacement cylinder head for Mercruiser, Volvo Penta, OMC, and GM marine 3.0L engines used between the years 1991-newer. This cylinder head has the smaller HO exhaust ports unlike the older pre-1991 cylinder heads.

Amazon.com: 3.0L GM High Output Marine Engine Cylinder---

The model of Mercruiser 3.0L 4 Cylinder Engine can be determined by looking at the last letters of the engine code which is stamped in all complete Marine Longblocks by General Motors at the time of assembly. If the serial number and/or model decals are missing the marine engine code will help to determine the engine model.
