(OSINT) is an intelligence that is produced from publicly available information and is collected, exploited, and disseminated in a timely manner to an appropriate audience for the purpose of addressing a specific intelligence requirement.

## An Introduction to Open Source Intelligence (OSINT ...

Open Source Intelligence can result in data breach or exposure of personally identifiable information on the internet. This can leave the victim wide open for cyber-attacks. Additionally, identity theft can result from such exposure. There really is no way of protecting yourself from Open Source Intelligence. It is not in itself a form of hacking.
