In The Sports Strategist: Developing Leaders for a High-Performance Industry, authors Irving Rein, Ben Shields, and Adam Grossman demonstrate that relying too much on winning is a losing long-term strategy for dealing with these challenges. Instead, they argue that sports organizations must focus on identifying and maximizing key factors that, unlike winning, can be controlled and shaped.

Playing sports provides participants with opportunities to develop leadership skills along with the development in communication and team building. These skills enable people to function effectively as leaders, as well. Playing and coaching sports activities, such as baseball, football, running, bicycling and swimming, helps participants learn to treat other competitors with respect, identify strengths and weaknesses, develop winning strategies and manage time effectively.
